The lot is situated on the K-section which is known for its spacious lots. Here you will find a quiet environment with lots of grown trees and little traffic. The lot is approx. 14.500 square feet and rather steep. Therefore it allows for a home to be built with one story at street side and two stories at the back side of the home. A new pond is being built just behind the lot. Therefore the views will even further improve! The lot is situated right next to the golf course so that you have optimal privacy. You not only see the putting green of hole 11 and the tee box of hole 12 but in the near future also a wonderful pond with water birds. This is truly an exceptional view! The K-section is a dead end street and only accessible for residents of this section. Children can play safely outside. For people who love to live in a green and quiet area the K-section is a wonderful place to live. This lot is now offered at a very attractive price! Lots BK-10 and BK-12 have already been built on so there is no hassle from construction on neighboring lots in the future. For more information or a viewing, ple
