Located in the high end section of the popular Blue Bay Resort: "Blue Bay Heights" this is the last lot of it's kind: The lot offers the best of both worlds: Unobstructed view over Curacao at the rear & great ocean view at the front. The lot is the highest in the area and on the edge of "Blue Bay Heights" you will enjoy full privacy in your garden while enjoying unobstructed 180 degree panoramic views of the Island... This is the last lot of its kind; All adjoining lots have been build upon so you will not have any construction disturbance from others around you and can position your villa in the best way possible. The lot to the left as well as the lot to the left-rear will not be built upon since this is a monument. Monument area, accessible from the rear/side of the lot has a direct pathway down to the beach, giving beach access in 600m or a 5min walk. Height of the lot at the rear: The top of the roof of the villa tot the rear is below the ground level of this lot. It is like having no back neighbor. The lot is almost 1.000 square meters in size,
