The home You enter the house through the large grassed front garden through the living room with open kitchen. The spacious open living room has French doors so that it flows into the porch. The entire porch is screened and you can enter the garden through a walkway. At the rear of the house is the garden where a separate apartment is located under the fantastic mango tree. In addition to the covered carport, a separate room has been set up as a "maid's room" together with a bathroom and storage/laundry room. These rooms all have a door on the outside through the garden. In the house, there are three bedrooms, all with air conditioning. The master bedroom has a private bathroom and a built-in cupboard space. The other 2 bedrooms use the 2 bathrooms on the bang, both bathrooms have hot water. The garden The garden is located around the entire property. Partly because of this, the house is also very suitable for small children, they cannot enter the street. At the front, at the entrance, you have space to enter the car through the automatic gate. You can drive all the way and park behind the house under the roof. Locatio
