\$ 561,798.00 USD

Saint Vincent and the Grenadines - St. Vincent

Arnos Vale

Listing ID: 00190294096

The 17 acre parcel of land is irregular in shape and has a sloping topography. All surface water is readily drained from the site, via concrete gutters and there is no risk of flooding during periods of heavy rainfall. The property is accessible from the windward highway and a secondary road. Presently the parcel of land is a forest reserve containing various species of plants, including fruit trees. There is also a natural spring on the property as well as a few small water courses. Due to its overall location however, the land may be developed for other purposes at a future date. This includes the possibility that the lands may be subdivided into building lots of economically viable sizes and sold.
