This 53 acre lot is ideal for a forward thinking developer who wants to get ahead of the game in providing housing solutions to the fast growing Ocho Rios community. There is a spring on the property that never runs dry which provides the added opportunity of going into the bottled water industry. This lot is mostly flat and has the potential of providing ocean views in most places. This is being sold by itself or in conjunction with 2 adjoining properties which are 65 acres and 133 acres. One has an active river on it.
